

## Loops for Acid

[Ambient atmosphere & rhythms](#) - Flutes, drones, textured soundscapes, and the hypnotic, nuanced minimalism that have become a Rich trademark are presented here with perfect fidelity and balance.

[Ambient grooves](#) - The *Ambient Grooves* collection provides a stunning array of sounds that blend and destroy musical boundaries.

[Ambient realms](#) - Enjoy a selection of synthetic and natural soundscapes with great utility for scoring soundtracks, multimedia projects, and other original compositions.

[Aural e : eclectic electronica](#) - Perfect as an eclectic standalone music construction kit, the Aural E loops are also ideal for multimedia developers who need positive, high-impact music and sounds of any duration.

[Bass-x](#) - a collection of floor shakin' bass loops produced by Groove Addicts, the world-renowned L.A. music production and sound design house.

[Bill Laswell collection](#) - The first four libraries in this series will certainly become the most respected collection of royalty-free samples in the world. Each volume will serve as a complete construction kit, providing endless solutions for producers of rock, funk, hip-hop, electronica, world music, and ambient/cinematic music forms.

[Blues guitar](#) - Enter the gold mine of authentic, traditional blues: deep delta stylings and scorching urban riffs, rich with tone and character.

[Cinematix](#) - Cinematix libraries harbor an abundance of music and sounds that are ideal for quick incorporation into all your music and multimedia productions. These libraries contain high-energy, high-impact instrument loops, stingers, stagers, instant music beds in many styles, and some great sound effects too.

Classic country

[Crimson, blue, & fabulous : Horncraft for R&B](#) - Known for over a decade as 'the greatest horn section in the world,' Birch 'Crimson Slide' Johnson (trombone), Lou 'Blue Lou' Marini (tenor saxophone), and Alan 'Mr. Fabulous' Rubin (trumpet) give up dozens of blistering riffs, solos, and sections, presented in several keys for maximum flexibility and fidelity.

Cyclotronic resonator

[David Torn splattercell : textures for electronica and film music](#) - A rich assortment of sounds inspired by David's SPLaTTeRCeLL projects, and perfect for electronica, remix, and film music.

[Discrete drums](#) - Each Discrete Drums volume contains three fully-mixed foundation beats, with all the fills and variations you need for creating complete, seamless drum tracks instantly, from crisp intro to smashing finish.

[Doug Colosio American piano](#) - Inside this library you will discover solo piano phrases that breathe pure American spirit, from traditional country blues, swing, and stride riffing, to country rock and ballad figures that are edited to perfection so that you can enjoy the sounds of smooth, natural, hand-played piano performances.

[Downtempo beats](#) - The *Downtempo Beats* collection contains a whole year's supply of fresh grooves, with fifty-two folders trading tips on jazz, funk, hip-hop, electronica, and dance music.

[Drum tools](#) - The ultimate rock and pop drum loop library.

[Electro lounge](#) - Bunker 8 Digital Labs together with Filet of Soul present twenty motifs that provide you with instant access to fully-formed grooves ranging from slowburn to disco.

[Electro-world percussion](#) - This collection addresses every major Middle Eastern rhythm with a variety of traditional instruments including doumbek, djembe, rik, frame drum, bendir, and a wide assortment of hand percussion.

[Electrocution](#) - a construction kit that combines the best of electro-hop, darkside, big beat and intelligent industrial music into a powerful collection of sounds that will give you the power to instantly create detailed, fully produced original music.

[Endlessflow : knutrix drum 'n' bass](#) - The *Knutrix Drum 'n' Bass* collection is a highly articulated, super-smooth drum 'n' bass construction kit that provides all the instrumentation needed for creating complete compositions.

[Endlessflow : ugly remnants](#) - the Ugly Remnants collection was celebrated as, "...truly massive... scary... twisted... ghostly... weird... wonderful... splendid... an excellent body of work." (Electronic Musician Magazine).

Essential sounds, vol 2

[Essential sounds III](#) - In the music department, you'll find acoustic and electronic drum grooves, wicked guitar and keyboard loops, funky bass grooves, and more. Elsewhere on the disc, you'll find game sound elements and sound effects, foley effects, soundscapes, menu wipes, and a variety of other sonic constructs.

Ethnicity

[Euro techno](#) - a collection of rave-ready beats, percussion, synths, pads, and arpeggios that reflect the energy and intensity of today's European dance scene.

Fast breaks : drum 'n' bass

Funky xstreams - Disc has everything you need to create cutting edge dance music including hard-core techno beats - machine beat loops with various styles ranging from techno, drum 'n' bass, hip-hop, and reggae.

[Futurist drum 'n' bass](#) - fast tempos and fractured breaks are resonating throughout the worlds of techno, pop, jazz, rock, and hip-hop.

[George Pendergast : essential percussion](#) - Essential Percussion library is packed with inspiring patterns played on custom kits and a wide variety of hand percussion including congas, bongos, djembe, doumbek, slit drums, timbales, bells, cymbals, shakers, tambourines, blocks, and more.

[Groove spectrum : R&B drums](#) - *Groove Spectrum R&B Drums* collection is the funk drum groove encyclopedia.

[Hip-hop/R&B vocals](#) - Built on rap, soul, hip-hop, and R&B values, the Mac Money crew proves once again that nobody's smoother - from male and female solos and harmonies to ad libs and scat phrases, beatbox riffs, sound bites, and even some spontaneous studio banter.

[ILONA! : universal female vocal toolkit](#) - Start with three full octaves of 'ooh' and 'aah' vocal samples, with long and short durations provided for every note. Then, add the production candy: separate, stereo Lexicon 480 reverb tracks, with your choice of decay times – for each and every note!

[Industrial toolkit : methods of mayhem](#) - From twisted guitar riffs and distorted synth loops to feedback rhythms and mouthbox beats, this disc gives you hundreds of aggressive samples – all original and royalty-free – that will add a little chaos to your compositions.

[Intelligent dance music : twine components](#) - Experimental electronica pioneers Twine present the Intelligent Dance Music collection, a construction kit packed with the super-detailed sounds of IDM – rhythms, melodies, bass lines, electro-acoustic treatments, digital breakdowns, evocative sonic environments, and more.

[Latin percussion](#) - A collection of sizzling rhythms. Whether it's a simple shaker, hypnotic clave, driving conga, or intense ensemble, these meticulously tight and dynamic performances will lend movement and energy to any track.

[Ma Ja Le' : Saturn and elsewhere, ethereal textures and psychotropic rhythms](#) - Composers/sound designers Paul Vnuk and Chris Short of Ma Ja Lé invite you to immerse yourself in the pulsating rhythms and swirling textures of the Ethereal Textures collection – a group of tribal ambient sounds that can be utilized as a standalone construction kit, or as a source of rhythms and atmospheres for electronica, experimental music, world music, and film scores.

[MAC money](#) - Electro Hip-Hop is the complete package of beats, basses, keys, guitars, and more, including the sweetest vocal harmonies, speech, and scratchin' you've ever heard, all royalty-free and guaranteed to bump.

[Methods of mayhem](#) - From twisted guitar riffs and distorted synth loops to feedback rhythms and mouthbox beats, this disc gives you hundreds of aggressive samples – all original and royalty-free – that will add a little chaos to your compositions.

[Nashville wire](#) - The Nashville Wire set portrays the pedal steel guitar in its most familiar milieu: the clean chords and time-honored transitions of country music, in top-notch performances using classic instruments and amplifiers.

[New roots reggae](#) - This brilliant collection of sounds gives praise to roots, dub, and dancehall reggae and brings these forms intact and grooving into the new worlds of modern dub, trance, and electronic music.

[Numina 1 & 2 : emotional peak sounds for cinema](#) - With the Emotional Peak Sounds for Cinema collection, Numina synthesist/composer Jesse Sola delivers startlingly pure sounds that reference common emotions and cinematic events with the kind of flair that will make your listeners feel as if they're having a completely new experience.

[NY dance](#) - The *New York Dance* disc contains a perfect blend of contemporary dance music styles, including big beat, house, deep house, electro, jungle, and more.

[On the jazz tip](#) - On the Jazz Tip collection is a jazz and smooth-funk construction kit filled with classic and contemporary grooves that reflect the old school world of cool performances and warm, vintage analog recording techniques.

Orchestral - [Classical](#) - [Modern](#) - [Cinematic](#) - [Rock & Pop](#)

Pandora's toolbox - This collection features the highly unusual sounds from the mind of David Torn. Creepy and kooky, edgy, unusual and weird, these loops are great for adding strange sounds to your audio production.

Phat trax XXL

[Psychedelic guitar](#) - Soaring leads, supple rock rhythms, special effects, and mountains of tone and sustain are presented here in a single overwhelming dose of ACIDized loops that have all the natural feel of an improvised live performance.

[Rapoon : sci-fi-tribal](#) - The spaces between Robin's mesmerizing loop points are filled with strange combinations of ethnic instruments, assorted noisemakers, found objects, obscure sound bites, and severe processing.

Rhythmic architectural design system - RADS, introduced by Pocket Fuel, is a vast collection of kick, snare, hi-hat and reide cymbal patterns, along with dozens of drum fills and cymbal samples.

Signals

Slow silhouette

[Songwriter's acoustic guitar companion](#) - Enjoy a fine assortment of electronica loops – beats, basses, sweeps, arpeggios, FX, and more.

[Sonic excursions for acoustic guitar](#) - utilizes delicate acoustic guitar performances as the source materials for the production of bright, dazzling sound sculptures.

Sounds of Asia - A variety of traditional instruments, including the dizu flute, the pip, and the yangchin, to weave a mesmerizing spell from the Far East.

[Spektral minimalism](#) - library filled with shifting, amorphous atmospheres, long drifting soundscapes, elegant piano passages, and textures that span the entire aural spectrum.
