

Health Form Instructions

- Include the student's name, date of birth, student ID#, and age on all correspondence. Print all student information legibly.
- Have a licensed medical provider fill out and sign the medical areas of Form A or attach an official Certification of immunization from a State Health Department. Students who have answered "Yes" to any questions on Form B must also obtain a provider's signature at the bottom of the TB Risk Sheet.
- MINORS (students under 18): A parent/guardian signature must be included for waivers, medical treatment, and counseling services.
- KEEP A COPY FOR YOUR RECORDS. Should anything be amiss, you can easily refer to what was sent to us.
- Mail or fax Parts A, B & C (and lab reports if needed) no later than July 21, 2017:
Mail: Ringling College of Art and Design
Attn: Student Health Forms
2700 N. Tamiami Trail
Sarasota, FL 34234
Fax: 941-359-4854
- The Health Form (Parts A, B, and C) are due by July 21, 2017.
- DO NOT WAIT! Late, incomplete or inaccurate information may delay registration.
- Questions? Contact Heather Murray, Health Services Records Coordinator, at hmurray@ringling.edu or call (941) 893-2855.

All incoming students are required to complete the following:

Part A: Immunizations (Titers are also acceptable)

1. MMR Series (2 doses) or titer

This series is required for everyone born after Dec. 31, 1956. This combination vaccine is given because it protects from Measles, Mumps and Rubella. Two doses are required for entry into Ringling College of Art and Design. One must have been received on or after the first birthday AND in 1971 or later. The second dose must have been received at least 30 days after the first dose AND in 1990 or later. Find more information [here](#).

OR titer:

Provide lab evidence of immunity by doing a blood test to check for antibodies for Measles, Mumps and Rubella. If you do a blood test, you need to provide the results on a lab form that should be faxed or mailed with the completed Health Form. ***NOTE: All titers must include a lab report.***

2. Hepatitis B Series (3 doses) *or titer or waiver*

Based on the Center for Disease Control's recommendations, students are encouraged to receive this vaccine series. Find more information [here](#).

OR titer:

Provide lab evidence of immunity by doing a blood test to check for Hepatitis B antibodies. If you do a blood test, you need to provide the results on a lab form that should be faxed or mailed with the completed Health Form. ***NOTE: All titers must include a lab report.***

OR waiver:

Students wishing to decline this vaccine must discuss the disease and symptoms caused by the Hepatitis B virus with their physician, then check and sign where indicated on the Health Form. Signing the waiver indicates you understand the possible risk in not receiving this vaccine. If you are under the age of 18 and wish to decline this vaccine, a parent must sign for you.

3. MCV4 (Menactra/Menveo) / Meningococcal Meningitis Vaccine *or waiver (if not living on campus)*

Based on recommendations from the CDC and the American College Health Association (ACHA), Ringling College of Art and Design **requires that all students living in Ringling campus housing be vaccinated against Meningitis**. As such, Ringling College requires all residential students to show proof of vaccination, with the most recent dose given after age 16. Find more information [here](#).

OR Waiver (if not living on campus):

Commuter students wishing to decline this vaccine must discuss the benefits of the Meningococcal Meningitis vaccination with their physician, then check and sign where indicated on the Health Form. Signing the waiver indicates you understand the possible risk in not receiving this vaccine. If you are under 18 and wish to decline this vaccine, a parent must sign for you.

4. Signature of student (or Parent/Guardian if under 18)

5. Tuberculosis Screening (Required for International Students)

A Tuberculosis Skin Test by PPD or Mantoux (within the last year) is required for international students.

NOTE:

- If both PPD and MMR are given, they must be given on the same day for the PPD to be accurate or given 30 days apart.
- PPDs must be read between 48-72 hours of administration.
- The result must be listed in "mm" and indicated whether negative or positive in the space indicated.
- If the PPD is positive, submit a copy of the chest X-ray report done on or after PPD placement.
- If you do the blood test—Interferon-based Assay (QFT or Tspot)—submit a copy of the laboratory report.
- If the PPD is positive or the Interferon-based Assay is positive, submit a copy of the chest X-ray report.

6. Medical provider's stamp and signature *or attach official copy of immunization records*

Part B: Tuberculosis Risk Sheet

- All incoming students must complete this worksheet, sign and date the bottom.
- If applicable, obtain provider's signature

Part C: Medical Policies and Health insurance Requirement

- Please read and review all requirements.
- Print, sign and date at the bottom.
