INTERNSHIP GUIDELINES FOR THE PHOTOGRAPHY & IMAGING DEPARTMENT

An internship is a career-related work experience that enhances a student's academic. The Photography & Imaging Department has guidelines regarding student eligibility for participation in internships. A faculty advisor will determine the final internship grade of "pass/fail."

Internships are subject to the same institutional policies as those of other courses including withdrawal without penalty deadlines.

Student Qualification Criteria

Students must pre-qualify to enroll in PHOT 475 Internship. Those students who do not qualify will be required to enroll in PHOT 477 Professional Project to satisfy degree requirements for the BFA in Photography & Imaging.

- The student must be a rising senior;
- Have a minimum of a 3.00 GPA, confirmed by the Registrar's Office, any exception to this requirement must be approved by the department head of Photography & Imaging;
- Have an excellent attendance record;
- Have demonstrated willingness to receive instruction and constructive criticism;
- Have an ability to follow through without constant supervision;
- Have demonstrated dependability, responsibility, and helpfulness.

Changes In Requirements

Changes in the requirements may occur during the academic year, so always check with the Photography & Imaging faculty advisor or department head well in advance of pursuing an internship.

Registration Deadlines

In order to earn credit, the Internship Agreement form must be completed and submitted prior to registering for the internship. Students registering for a summer internship must have all paperwork completed and submitted to the Registrar before June 1. Academic projects agreed upon by the student and faculty advisor must be submitted to the faculty advisor before the internship semester ends.

Course Descriptions

PHOT 475 Internship | Credits 3.00

Experience professional practice; build qualifications for entry-level jobs. Eligible students enter into an agreement between the intern and site supervisor, to be negotiated by the intern with extensive input from the Faculty Advisor, Registrar, and AVPAA/Dean of Undergraduate Studies. Documentation of performed work and oral presentation required. Prerequisite(s): PHOT 374; 3.0 GPA. Grading: Credit/No Credit.

PHOT 477 Professional Project | Credits 3.00

Students may elect to do a professional project instead of an internship. Prerequisite(s): None.

The Process for Arranging for an Internship or Professional Project

Seniors majoring in the Photography & Imaging Department are to register for PHOT 475 Internship or PHOT 477 Professional Project. Each course carries three credits and is presently listed in the Photography & Imaging curriculum as a fall semester course requirement.

Internships must be arranged before the beginning of the semester. The student must:

1. Check with the academic advisor in the Registrar's office to insure that all graduation requirements are being fulfilled and that the GPA requirement is being met.

Because internships are subject to variables beyond anyone's control it is most strongly recommended that students NOT engage in an internship if: a) the internship course is needed to complete the minimum number of hours needed for graduation, or b) the internship course is needed for the student to qualify for full-time status and financial aid, or c) the internship is part of a schedule that includes an overload.

2. Independently select an internship site and acquire approval of the site internship supervisor and your major's Department Head or faculty designee.
3. In conjunction with the site supervisor, determine work hours and complete the learning objectives, intern's responsibilities, and tangible evidence of learning sections of the internship agreement.
4. Arrange an appointment with the Photography & Imaging Department Head or faculty designee for final approval.
5. Submit all completed forms to the Registrar's office at or before the deadline. It is the student's responsibility to make sure all of the forms are signed.

Students can elect to take their internship or professional project option during the summer between the junior and senior years provided all criteria are met and with approval from the faculty advisor and the registrar. Summer internships are encouraged. Students who successfully complete their projects during the summer will receive credit in the fall semester of the senior year. Students electing to work extensive hours during the summer will do so for the value of the experience. The Photography & Imaging Department strongly recommends that the student negotiate a fair payment for the internship with their supervisor. The receipt of academic credit in addition to wages (or other compensation for an internship does not represent a conflict of interest.

If students cannot arrange for the internship or project during the summer or want to change from one to another, they can do so during the fall drop/add week with approval from the faculty advisor and the department head and the registrar.

Information about PHOT 475 Internship

An internship is a career-related work experience that enhances a student's academic training and provides a real world introduction to the student's chosen academic major. Students will work with a faculty advisor and/or the department head in all phases of planning for the internship from an initial written proposal outlining learning objectives and goals, through to receiving site approval, working with the site supervisor and obtaining the final evaluation of the student's performance by the site supervisor and the faculty advisor. The grade for the internship will be on a pass/fail basis. With approval from the faculty advisor/department head, students may choose to complete the internship during the summer break or during the fall semester. The pass/fail grade will be assigned during the fall semester.

Information about PHOT 477 Professional Project

The professional project is an option for students who do not elect the internship and is intended to encourage our students to interact and document the diversity of people, places and organizations in the local community. This type of project could also be done as a collaborative effort between several students. Freelance jobs do not qualify for this option. The professional project needs a written proposal and approval by the faculty advisor. Students electing the professional project option will be graded using the College's approved grading system. Once the project is approved, there will be additional forms the College requires that need to be signed by the student, and faculty supervisor.

Key Policies Regarding Internship Credit:

Internship applicants must conform to the following procedures, and applications must be completed with all appropriate signatures before the start of the internship semester or summer activity.

Procedure

Pre-qualify for PHOT 475
Secure an intern site
Secure internship site approval
Complete Standardized forms
Site Supervision
Final Evaluation

Responsibility

Student, Registrar's Office, Dept. Head
Student
Student, Faculty Advisor/Dept. Head
Student to deliver all necessary copies
Site Supervisor
Site Supervisor/Faculty Advisor or Dept. Head

International Students

Once international students have job offers and authorization for Curricular Practical Training on their I-20, they must take the documentation, along with passport and I-94, to the Social Security Office to apply for a SSN.

You must apply in person. Please see the Director of International Student Affairs for detailed instructions.

apetteng@ringling.edu

The receipt of academic credit in addition to wages for an internship does not represent a conflict of interest.

Students engaged in internships will have the department head or their designee assist in the formulation and approve the academic component of the internship. The faculty advisor/department head with the site supervisor also evaluates the academic component on a Pass/Fail basis.

Internships must be conducted on site under the direction of an experienced professional in the art/design/ photography fields. The intent is that the professional provides on-going guidance and education throughout the internship. Freelance jobs do not qualify for an internship nor do other situations without a professional site supervisor.

Your internship documents must be complete and signed and on record in the Registrar's Office by the "drop/add" deadline. If your documents are not complete by the "drop/add" deadline, you must go to the Registrar's Office on the "drop/add" deadline day and register for the PHOT 477 Professional Project class.

BEFORE YOU BEGIN YOUR INTERNSHIP

Sexual Harassment Training

Be sure to complete and send a copy of your on-line Sexual Harassment Training at the URL indicated prior to starting your internship.

INTERNSHIP FORM FOR THE PHOTOGRAPHY & IMAGING DEPARTMENT

Internship Agreement for PHOT 475 PDI Internship, 3 credits

This form must be filled out completely by all parties listed at the end of this document before beginning an internship to assure that all required approvals have been secured. The original shall remain on file in the Office of the Registrar. If the final evaluation is positive, the internship is satisfactorily completed, and the faculty advisor/department head gives a passing grade, academic credit will be awarded. It is the student's responsibility that all forms are completed and copies are delivered to the internship advisor, and the Office of the Registrar.
