

# Entertainment Design

Translating stories  
into experiences.

Ringling College  
of Art + Design

Here's a sneak peek →

Entertainment Design is the art of creating compelling and engaging experiences for entertainment. Entertainment is rooted in story, and the skill of the Entertainment Designer is to effectively and collaboratively translate a narrative, concept, or theme into a real-world experience that resonates with the guest.

As a student of this program, you will learn the skills necessary to conceive, visualize, and realize innovative design solutions that bring immersive entertainment experiences to life. You will work across disciplines to design for theme parks and destinations, themed dining, exhibitions, and interactive experiences, to name a few.

The Entertainment Design industry is expanding worldwide. Discover how a degree in Entertainment Design from Ringling College of Art and Design can take you to new places—both around the globe and into worlds that have yet to be built.

## Emphasis in Themed Environments

Focusing on themed environments, the curriculum addresses industry standards and skills related to a narrative-driven built environment. Courses focus on building a knowledge of three-dimensional spatial relationships, material properties, fabrication techniques, wayfinding, and developing your digital visualization and communication techniques.

## Develop Technical Skills

Entertainment Design students develop advanced technical skills using a variety of design techniques in drawing, including CAD drawing, 3D modeling, and 3D prototyping. These skills are essential for communicating visual ideas for architectural elements, spatial design, signage, and more.

## Career Options

Attractions Designer

CAD Designer

Color Designer

Concept Designer

Creative Services

Project Manager

Exhibit Content

Developer

Exhibit Designer

# Themed Entertainment Association (TEA)

Ringling College is a member of the Themed Entertainment Association (TEA), which is the leading international network of storytellers, designers, engineers, and technologists behind the magic of the world’s most compelling places and experiences. Students from all majors collaborate in our own NextGen chapter of the TEA. Graduates of the program who are members can use this network to pursue opportunities in the industry, such as internships and jobs, as well as have access to professional development resources like webinars, conferences, mentorship, and behind-the-scenes events.
