

Industry Experience at Ringling College

## HOW INDEX WORKS

Project requests are submitted through our online Project Request Form. The link can be found at [www.ringling.edu/index](http://www.ringling.edu/index). Once the request is received, we will ascertain how to best proceed in order to meet the academic requirements, deadline, and project needs.

There is a \$500 operational fee for accepted projects. Any project costs will be estimated in the proposal. A lead time of one semester in advance is required for scheduling and planning.
